### 13. What were your expectations for the camp?

Improve my English; lot of fun; meet new/interesting people; expected more lessons; find new friends; practise my English; see Hungary; expected beautiful shops; learn from others; learn/practise English in a funny way; bigger rooms; cleaner lake water; was a bit afraid before the camp started.

### 14. How well did the camp meet your expectations?

Well; very well; surprised about accommodation & kindness of teachers; couldn't meet - but not your fault; expectations fulfilled; would like to see more of Hungary; pretty well; found out I mustn't be afraid any more.

### 15. Did you get new ideas? If so, which?

Yes (6) - Start a summer camp in our country; to exchange e-mails before the meeting; something about how to stop global warming; to bring CDs with films in English.

### 16. Did you start communication and/or cooperation with other participants?

Yes (19) - We exchanged „hundreds“ of e-mails; think I made new friends; we were like a family and could talk with each other like sisters and brothers; yeeees! got many new friends.

**17. At the next camp I would like to have more and less of the following:**

*More:* free time; music; fun; excursions; workshops; time to sleep; films; food; (evening) activities altogether; fun in discos; participants from western countries; activities in/on the lake; music from Poland; drinks.

*Less:* lessons; workshops; spiders; flies; maybe fewer participants from a single country; food; pictures taken by Gergely.

**18. Any additional comments?**

Very nice; very good camp; surprised about „cool“ camp; never experienced before; improved my English; learned more about other cultures; thank you (very much); some stayed with people from their country and separated; some behaved like children or badly; time was too short; maybe met new friends; music was very good; camp was ok.
